HUSSEIN TAHA

Beirut, Lebanon | (961) 71-230368 | Doha, Qatar | (974) 66071367 | hireme@husseintaha.com | www.linkedin.com

Experienced Team Lead and Senior Software Engineer skilled in full-stack development, cloud solutions, and enterprise integration. I lead teams to build reliable, high-performance applications and handle complex data migrations using .NET, Angular, and SQL Server. Known for solving problems quickly, learning new technologies fast, and delivering clean, maintainable code.

EDUCATION

Master's Degree (M2) in Systems, Telecommunications, Networks, and Informatics | Lebanese University & Paul Sabatier University, France
Degree obtained June 2015

- Joint international program focused on advanced systems engineering, networking, and IT integration.
- Completed research project in distributed systems and secure communication.

Bachelor's Degree in Informatics | Lebanese University
Degree obtained June 2013

- Specialized in software development, databases, and computer systems.
- Participated in university projects involving application design and data management.

EXPERIENCE

LEAD SOFTWARE ENGINEER | EVERTEAM-INTALIO | DOHA, QATAR
2017 – Present

- Lead multiple development teams on enterprise projects, ensuring clear goals, timely delivery, and high-quality code.
- Architect and implement solutions using .NET Core, .NET, Angular, JavaScript, TypeScript, SQL Server, and modern web technologies.
- Conduct code reviews, troubleshoot complex issues, and mentor junior developers.
- Migration of complex systems (Filenet, Documentum, Oracle) to Sharepoint + Document Management systems

Senior Software Engineer | Fovéa (Freelance) | Remote
2021– 2022

- Develop full-stack applications using Node.js, Angular, React, TypeScript, and CouchDB.
- Implement automated testing (Mocha, Jest, TDD) and serverless/cloud-based solutions.
- Build dynamic components, libraries, and maintain reusable code for multiple client projects.

Senior Software Engineer | Everteam.mea | Lebanon & Qatar
2015 – 2017

- Designed and developed enterprise-grade software solutions in .NET, PHP, Java, Python, and Android.
- Implemented web services (REST/SOAP), multi-threading, sockets, CORBA, and RMI for complex applications.
- Managed databases including SQL Server, MySQL, MongoDB, CouchDB, and Oracle.
- Migration of complex systems (Filenet, Documentum, Oracle) to Sharepoint + Document Management systems

Software Engineer | Fovéa | Lebanon
2015 (5-month training)

- Built cross-platform mobile apps using PhoneGap and Adobe AIR, and Node.js backend with CouchDB.
- Developed e-commerce mobile applications and administrative web dashboards.

Software Engineer | Multi-companies (Deltacall, Lebanon)
2012 – 2015

- Developed Android, WP8, and web applications for clients including hospitals, electronics companies, and media outlets.
- Created backend services, control panels, and websites using ASP.NET, PHP, and MySQL.
- Contributed to open-source projects including Android animation libraries and automated code generators.

SKILLS

- Dotnet core, Net framework
- REST & SOAP Web Services, Serverless/Cloud Development, CI/CD
- Node.js, Angular, React, TypeScript, Backbone.js, ActionScript 3
- HTML, CSS, Sass, JavaScript, jQuery
- TDD, Mocha, Jest, Unit & Integration Testing

- Android, Windows Phone 8
- SQL Server, MySQL, Oracle, MongoDB, CouchDB, Redis
- Java (Sockets, Threading, CORBA, RMI)
- Python, PHP
- Security, Encryption, Multi-threading, Network & Server Administration
